

# Gleichen Call

NINETEENTH YEAR, No. 12

GLEICHEN, ALBERTA, WEDNESDAY, JUNE 10, 1925

SUBSCRIPTION \$2.00 A YEAR

"The MONEY is in the BANK COME and GET IT!" on TUESDAY, JUNE 30th, and WEDNESDAY JULY 1st, 1925.

## Who Should Come to the Gleichen Potlatch and Stampede

If you're pockets fulla dough  
And you don't know where to go,  
Come to Gleichen Potlatch on the 30th day of June.  
If you're a puncher from way back  
Or a Bear-cat on the track,  
Be in Gleichen on the 30th day of June.  
And if you're feeling just so dry,  
That you'll never stand July,  
Hit for Gleichen on the 30th day of June.  
Or if you've forgotten how to smile,  
And the troubles round you pile,  
You'll laugh outright on the 30th day of June.  
Suppose you haven't had a dance,  
Since you got into long pants,  
You'll start shimmying on the 30th night of June.  
There is something for you all,  
At Stampede, Potlatch or Ball,  
Come, we'll show you on the 30th day of June.

—Anon.

It will not be a question of who will be here for our Stampede and Potlatch on the 30th of June and July 1st, but a question of who will be sick and crippled and unable to come.

The potlatch spirit is in the air and whosoever two or more Gleichenites are gathered together it is a safe bet the words "stampede" and "potlatch" are mingled with their conversation.

Potlatch is a fever that is contagious and develops more serious phenomena than any other disease science has yet discovered. It exhilarates but does not intoxicate. It is very dangerous for people who don't smile as it invariably gives them a severe pain in the sides, but this wears off in time and frequently the non-smilers become addicted to the potlatch fever and suffer most severe agony unless they can have their craving immediately satisfied.

## STAMPEDE and POTLATCH

June 30-July 1

Even the most healthy people are apt to suffer a relapse at any moment. Still a few days of work never fails to bring the patients back to normal.

Every society in town is preparing little potlatches, but positively refused to give any information of details and all the satisfaction they offer is "Come and see June 30th."

One thing about the potlatch is sure—it will be the biggest thing ever, and no one can afford to miss it. Nor does it seem any intend if one can judge by the way the High School girls are selling admission tickets. They are out to sell 12,000 and will not rest until the 12,000 are disposed of.

## "The All-Blacks From Gleichen"

This is the name given the big 36-horse team that will be assembled here next Monday for a two-weeks course of training before going to the Calgary Exhibition where they will be the main feature in the Historical Parade of which motion pictures will be taken and sent broadcast over the world.

Can anyone imagine the publicity the Gleichen District will drive from this beautiful outfit.

All new McCormick wagons and tanks, furnished by the International Harvester Co. through Mr. J. O. Bogstie, their local agent here, are now being set up.

All the new harness, which is being furnished by Mr. T. H. Beach, our local harness man, is being put together and will be ready for the horses when they arrive.

This equipment is being loaned to the community by these firms free of charge:

## Work on Stampede Arena in Full Swing

A gang of men under the supervision of Mr. James Ostrander are now at work at the Stampede grounds putting everything in good shape. The track is being graded and will be like a boulevard.

## BIG POOL DRIVE NOW UNDER WAY

The province-wide drive for memberships for the dairy, livestock and poultry pools is well underway, and will be in progress until June 25th. In connection with the drive, a great campaign of meetings covering every district in the province is being held. There will be more than 500 of these meetings, with speakers including provincial legislative members and prominent agriculturalists.

Preparations for the reception to Alberta of Walter H. Petet, the American co-operative expert who is to assist the pool with five meetings in the province, are complete. Mr. Petet, who is secretary of the federation of all U.S. co-operative marketing associations, will arrive in Lethbridge June 13th and will be met by Premier Greenfield or Acting Premier Hoadley and A. B. Claypool, chairman of the Joint Pool Committee. Mr. Petet will speak in Lethbridge, Saturday, June 13th, and in Calgary June 15th, where a special reception will also be held for him. He speaks in Red Deer June 16th and Edmonton June 17th. At Camrose the Board of Trade has taken entire charge of arrangements for Mr. Petet's visit there June 18th.

His speech at Calgary will be broadcast from the Herald station, and from the Edmonton Journal station. During last week the Saskatchewan livestock investigation committee headed by Hon. Geo. Langley, paid a visit to the province and held conferences with the pool officials, getting information on the organization of the pools in Alberta.

Contracts for all three pools continue to arrive at headquarters, and the pools have opened the concentrated drive for memberships with a considerably percentage of their objectives already signed up.

In addition to sending Mr. Petet, the general secretary, for a week to Alberta, the National Council of the Co-Operative Associations, have offered any other assistance in their power to the organization of the Alberta pools. This federation in the States has a farmer membership of over 620,000, and includes 40 of the largest crop pools in the States.

W. A. Waldron, Co-Operation and Markets Commissioner of the department of agriculture, of the Province of Saskatchewan, held a conference with Mrs. F. E. Wyman, secretary of the Alberta Co-operative pool, in Edmonton, on matters of mutual interest in connection with the organization of the Provincial Poultry Pools now underway in both Alberta and Saskatchewan.

Among other matters discussed, the necessity of an inter-provincial organization or arrangement whereby the Provincial Pools would centralize their selling agency, as it would prove disastrous to have pools competing with each other on domestic or foreign markets.

## BOW VALLEY CONVENTION ON FRIDAY NEXT FARMERS TO HOLD ALL DAY SESSION

### Hon. George Hoadley to Speak at Convention on Friday

Next Friday night, June 12th, Hon. George Hoadley is to speak at the Bow Valley U.F.A. and U.F.W.A. convention in the Meadowbrook Community Hall.

This will be the first time the honorable gentleman has attended a public meeting in the Gleichen district and it is anticipated there will be a big crowd to greet him Friday night.

It is stated he has promised to explain why the Gleichen School of Agriculture was closed, and as this is of the greatest interest to the people of this district everyone will be anxious to hear the explanation.

The convention opens at 10 o'clock Friday morning and will last all day, winding up with a big dance that night.

The public has been invited to attend and no doubt will take advantage at least of the public meeting and night.

## REAL CO-OPERATION CINDERING STREETS

The real spirit of co-operation was shown to a nicety last Thursday night when about a dozen teams and a dunned townsman with shovels and rakes turned out to spread cinders, kindly given by the C.P.R., on Fifth Avenue.

Sharp at seven the men began to arrive and soon after the first wagons were loaded by about 35 "Knights of the Shovel", led by Mayor Michael, and upon arrival at the Community Hall a bigger force attacked them with a will under the direction of Ald. Ferguson and made short work of covering the already graded about an inch in depth.

There is no special credit due any individual for all worked willingly, and yet there was so many to help that no one was over worked. It is pleasing to note in this splendid work there was no class distinction, for practically every man who possibly could turned out and showed himself willing to do his "bit".

This is the kind of co-operation that really counts.

To-morrow night—Thursday—the "Knights of Labor" will again meet and invite all to join in making the streets of Gleichen fit for travel at all seasons of the year.

## A Review in Print is Worth a Mint

was the necessity of an inter-provincial organization or arrangement whereby the Provincial Pools would centralize their selling agency, as it would prove disastrous to have pools competing with each other on domestic or foreign markets.

## UNION S.S. PICNIC MOST ENJOYABLE

In spite of the rather difficult weather the picnic of the Union Sunday School was held as planned on Wednesday of last week. It was too cold for the proposed trip to the river so the school yard, fair grounds and the Community Hall were used.

The Sunday school staff are full of appreciation of the kindness of the hall committee in so readily granting the use of the hall. The usual program of races were run off. The leading events in this part of the program were two ball games. In the afternoon the Trail Rangers played another team of boys and won a pretty close game. After tea the winning team played the big girls class and again led the score. The day concluded with a program of moving pictures in the hall which were enjoyed by a large crowd in which were a large number of grown ups.

The general opinion of those present says "the best picnic yet." The response to the appeal for cars which, while they were not needed is very much much appreciated. The donation of winners and milk from Mr. Bartsch added much to the success of the day. The services of Mr. R. M. Stabback as umpire in the ball games was of real value also his help with the races. The work of the staff and members of the Bible classes as usual was of the very best type.

All changes for Ads. MUST be at Call office by 12 noon each Monday.

Read this again to get it. He whose laugh lasts longest best.

## ARROWOOD AND DISTRICT NEWS

The Arrowood local of the U. F. W. A. met at the home of Mrs. Earl Doten, Wednesday June 3rd, thirty-three being present. An interesting and lengthy paper on "The League of Nations" was read by Mrs. Robt. F. Williams. A piano solo was given by Mrs. M. Henry. Miss M. Allan also favored with a piano solo which was much enjoyed by all present. Various contests and games filled the remainder of the afternoon; Mrs. J. C. Buckley winning the prize for the highest score and Mrs. Morris, who was present visiting Mrs. R. R. Saunders, winning the booby prize.

It is a bit interesting when conversing with one who has just returned from one of these meetings to notice the satisfaction and interest which is always expressed. This may in a large part be attributed to the method of their system of organization which plans and announces their programs some months in advance, thus allowing ample time and opportunity for their preparation, especially when elaborate research is required.

This local is being entertained by the Queenstown local, Tuesday, June 16th. Their next regular meeting to be held at the home of Miss Ballard, Wednesday, June 24th.

The Arrowood Board of Trade met in the Arrowood auditorium, the evening of Tuesday, June 2nd. With Pres. J. S. Culp presiding, the minutes of the last meeting were read by the secretary and accepted by the meeting. Mr. Culp then mentioned to the meeting the question of a daily rail service to the Arrowood post office which received considerable consideration by the members present.

Though the attendance was not as large as had been hoped other public questions such as a city water supply system, provisions for the dumping and destroying of refuse under sanitary methods, etc., were considered. A committee on public health consisting of Mr. Troy and Mr. Moir were appointed.

Arrowood having what is perhaps one of the best locations upon the new line is receiving attention from men in districts far more distant than many may suppose, and with her social and educational institutions so well developed in advance, she should experience a continuation of high prosperity and upbuilding. With abundant resources of an agricultural nature, a district populated with a people of high ideas and similar interests, a public initiative should spring up and become highly effective.

Many towns in the province are swamped with public debts incurred through unwise investments in public utilities, while others have effective fire prevention, good water systems, good streets, etc., and are without the burden of debt. To which class shall Arrowood belong? It is a public duty and every citizen's privilege to take part in the meetings of his town for a town may never

progress far above the public spirit of its citizens.

The work of building the new railroad is just being completed, and it is said that the passenger trains will be running by the end of the month, which will make Arrowood practically an independent town, for the local freights will be along, hauling freight in any quantity, and while it will not be so convenient to do a large part

of the buying in Medicine Hat, judging from the enthusiasm and interest shown by the citizens of Blackie and of the Aldersyde districts, there must be some bright prospects for connections with Calgary in the near future, as both places have recently circulated a petition asking their town be made the junction point of the new line with that upon which Lethbridge is located.

AGENTS FOR

MEN'S COTTONADE OVERALL

This is the grey stripe that wears so well.

## Saturday Special Groceries

Jelly Powders ..... 4 for 25c.  
Oranges ..... 3 for \$1.00  
Bananas, fresh... 3 lbs. for 25c.  
Pineapple, last shipment, 40c ea.

Canned Peas and Peaches,  
Large Size ..... 2 for 75c.  
Rhubarb, Choice ..... 7 lbs. 50s.

WORLD HAPPENINGS  
BRIEFLY TOLD

Lieut.-Colonel C. A. Repington, noted war correspondent and writer on military subjects, died of apoplexy at Rome, May 25.

An agreement has been reached by the French Government and the opposition in the senate, whereby the French embassy at the Vatican will be maintained.

The King has appointed the Duke of Northumberland a Knight of the Garter, filling the vacancy caused by the death of Marquis Curzon, of Kedleston.

A bill amending the Railway Act, 1919, and designed to prevent the transportation of liquor by false billing, received second reading in the house.

The right of the Crown to appeal in criminal cases will be restored in amendments to the Criminal Code, introduced by the minister of justice, are made law.

The bill to confirm a trade agreement between the Canadian Government and that of the Netherlands has been given third reading and passed final stages in the house.

Marshal Joffre, accompanied by members of his staff and a detachment of troops, attended the funeral of the Earl of Ypres. Services were conducted at Westminster Abbey.

There is an agitation in Ulster to induce the Northern Government to proclaim the twelfth of July a "dry day," following the example of the Free State in prohibiting the sale of liquor on St. Patrick's Day.

Dr. Donaldson Bogart Dowling, 67, explorer and geologist with an international reputation, and responsible for the discovery of many coal and oil fields in Western Canada, died suddenly at his home in Ottawa.

The Imperial Government has accepted the invitation of the New Zealand Government to participate in the international exhibition in New Zealand next November. It is also hoped to arrange for a British exhibit in the art gallery.

Memorials to Karl Marx, the German Socialist, in the shape of tablets to be affixed to houses which he occupied in London, have been banned by the museum's committee of the London county council. The committee rejected the proposal that such memorials should be erected.

## Wireless In Far North

North West Territories and Yukon Station Will be Erected at Aklayik This Summer

It has been decided to establish the most northerly main station of the North West Territories and Yukon Wireless System at Aklayik in the Mackenzie River delta. Aklayik is more than 2,000 miles north of Edmonton by the regular travelled routes and is the terminal of the Mackenzie River navigation and the northern winter mail service. Accessible to the inhabitants of the Arctic coast in summer and winter, it has become the centre of the fur trade from Coronation Gulf to the Alaskan boundary.

The Royal Canadian Corps of Signals in co-operation with the North West Territories and Yukon branch of the department of the interior will establish the station this summer. As Herschel Island is the customs and immigration port for ocean vessels coming from Alaska, a sub-station will be installed there and operated during the season of open navigation.

## Not A Pleasure Trip

Tours of Prince of Wales Are Very Tiring

It is said that this official tour may be the last the Prince will make. When he returns he will have seen practically the whole of the British Empire—certainly far more of it than any other member of the royal family. He will be equipped then with some intimate knowledge of the many lands under the flag, and with first-hand information of the needs and conditions of many different peoples. The untravelled little busybodies who regard every tour the Prince makes as a glorified joyride—expensive and unnecessary—will do well to remember that these journeys are conditioned by ceremony and official business. The Prince has not set forth on a pleasure trip—but on what will be a very fatiguing journey of imperial duty.—London Daily News.

## Modern Advertising

One of the principles insisted upon by the exponents of modern advertising is that truth is more potent than deceit. First, the advertiser ought to have something worth selling; then his business is to let people know about it and to show how it is in his power to serve them to advantage.—Hamilton Herald.

W. N. U. 1579

## Knew About Jutland Plans

Britain Informed About Battle and English Fleet Moved First  
Prof. Bernard John Wilden-Hart, who has made military intelligence in Europe a study, in a lecture before members of the Liverpool Geographical Society, asserted that for several years before the war Germany had 8,000 spies scattered at various points between Berlin and Brussels. The German army billets in Belgian towns and villages had been arranged and scheduled three years before a shot was fired in 1914, Prof. Wilden-Hart asserted.

The lecturer, who was professor of English at the Imperial Japanese University, Nagoya, from 1909 to 1915, and has written numerous works on the espionage systems in Russia, Germany, Japan, Poland and other countries, said that the German naval plans concerning the battle of Jutland were ascertained by British intelligence officers 24 hours before the Germans moved a vessel for the fight, and that as a matter of fact the English fleet moved first.

## Will Hold Mammoth Banquet

Dinner at Olympia Largest Ever Given In World

More than eight thousand guests will be present at a banquet—believed to be the largest ever held in the world—which will take place at Olympia on August 8.

The dinner will be given by the United Grand Lodge of England in connection with its million memorial fund. This Duke of Connaught will preside.

Fifteen hundred waitresses will attend the guests who will require more than 50,000 plates and dishes, 24,000 glasses, and 10,000 pieces of cutlery. Messrs. Lyons and Co., Ltd., the caterers for the banquet, will supply all this glass and china from their ordinary stock.

The cooking will be done in seven kitchens, which will be under the control of a control office, electrically fitted like the conning-tower of a warship.

## Dog Devoted To Master

Did Not Live Very Long After His Friend Died

By the death of Rex, a red-headed terrier, the house dog at the Hotel Victoria, Aldershot, shortly after the funeral of Lt.-Col. E. M. Murray, a remarkable story of a dog's devotion to a human friend is brought to light.

Rex was deeply attached to the colonel, who stayed at the hotel, and during the funeral ceremony Rex ran into the cemetery chapel and sat under the Union Jack draped coffin. He afterwards walked beside the cortege to the graveside. After the funeral Rex disappeared for two days. When he returned home he refused to eat or to be consoled, and pined away and died shortly afterward.

## Earl Of Ypres Dead

British World War Hero Was Seventy-three Years Old

The Earl of Ypres, better known as Field Marshal French, British world war hero, died at Deal, England, May 22, aged 73.

Since his retirement from his post in Ireland in 1921, the Earl of Ypres had lived quietly. His last appearance at a Canadian ceremony, was on July 8, 1923, when he assisted in the unveiling of a memorial erected by the Canadian battlefields commission near Ypres, to perpetuate the honor of those who fell in the second battle of Ypres.

His heir is his son, Viscount French.

## Progress of the Dirigible

Cumbersome Machines Are Slowly Becoming More Air-Worthy

These are cumbersome affairs, unwieldy in gales, and in many respects they have hardly emerged from the experimental stage. Year by year, however, they become a little more air-worthy, a little more able to come safely through gales and mishaps. They are not so nearly masters of the skyroads as the aeroplane, but they seem to be slowly and sometimes painfully achieving that mastery.—New York Post.

## Woman Manages Stock Farm

One of the largest stock farms in England is managed by a woman, Lady Barker, of Barwell Court, famous for its Percheron horses. Lady Barker is not only owner of the estate but is the actual superintendent of the farm stock.

## Ex-Khedive Starting Bank

The ex-Khedive of Egypt, who lost his throne in 1914, is now starting a bank in Constantinople. He and his family are very rich, thanks to their possessions in Egypt. He is, of course, a Turk by descent.

Russia Responsible  
For Kitchener's Death

Betrayed Plans to Germany Who Laid Mines to Sink Cruiser

Perennial discussion of who betrayed Kitchener's plans for the sinking of the German cruiser, "The Truth About Kitchener," containing a cryptic letter from General Ludendorff suggesting it was the result of a Bolshevik plot.

This led to a statement from Sir George Arthur, who was Lord Kitchener's private secretary, that Russia was the villain in the case.

"Lord Kitchener's secret visit to Russia was betrayed to Germany by Russia," he said, "and, as a result, Germany made special preparations. We know the names of the officers who laid the mine (which sunk the cruiser Hampshire, on which Kitchener was travelling). Whether the secret was given away by Russia to prevent the Russian army from recovering with Kitchener's help, I cannot say, but of the betrayal of Kitchener there is no question."

## May Organize Labor Party

Japanese Are Studying Methods of Organization in Britain

Kagawa Toyohiko, a labor leader of Kobe, Japan, arrived in London recently to study the workings of the British Labor party as an aid to organizing a Labor party in Japan. Mr. Toyohiko said the Socialist and Labor leaders of Japan had combined in efforts to further the movement and that while the Japanese Labor party would be modelled after the British system it would function in some ways along the lines of the Social-Democratic party of Germany.

The new Japanese Labor party will include, necessarily, members of the Japanese Federation of Labor and the Socialist movement, the Japanese Fabian Society, consisting of a small group of students and professors and peasants' union. It is quite likely, in the opinion of Mr. Toyohiko, that the party will also include a certain number of liberal members belonging at present to the government and opposition parties.

## Aerial Company Organized

Aeroplane Taxi Business Is Flourishing in Southern Saskatchewan

Lieut. O. H. Cleaver, R.C.A.F., a katon aviator, has moved all his flying equipment from Saskatoon to the south of the province. There he has organized a \$10,000 aerial company with aerodromes and hangars at Shaunavon and Bracken. He bought out the commercial aviation company at Moose Jaw and he now has four planes. Aeroplane taxi business, Cleaver says, has been flourishing all spring and one of the most important features of his summer programme is the transportation of Shaunavon doctors to their country calls. Two Shaunavon doctors have a territory of 200 miles, and the aviator has placed one "chick" entirely at their disposal. The physicians intend to use the air route for all their trips of greater distance than 10 miles from Shaunavon. Already the flyer has been receiving two and three calls a day from them since he started sky-riding in March.

## Rent Estates For Golf

Many English Landlords Obtain Revenue From Practical Idea

Many of England's great landlords are taking the defensive to steady their waning fortunes by putting idle sections of their vast estates on the credit side of the ledger. The novel remunerative method adopted last year on the estate of the old Cecil family in laying out and renting an eighteen-hole golf course has been adopted by many other owners this year, and carried further so as to include tennis courts and polo grounds.

Those cases where the estates are near cities have found the idea most practical. On weekends there have been steady streams of golfers who cannot afford to join expensive clubs to these links, where they are able to play for about a half-crown a round. The Marquis of Queensbury has built tennis courts on his estate.

## Origin of Ice Cream Cone

How did the ice cream cone originate? According to one story it was during the Louisiana Purchase Exposition in St. Louis that a young man was selling ice cream to the exposition visitors next to a stand where a woman was baking battercakes, and noticed that many persons folded the cakes around the ice cream and ate both together. The idea caught on; the cakes were made in the shape of a cone, and that started the sale which now amounts to billions a year.

A pessimist is one who is always expecting bad luck and is surprised when it comes.

World Peace  
Movement

Germany Willing to Ban Poison Gas in Warfare

No announcement affecting the future of world peace has created more satisfaction and more eager discussion than Germany's official declaration of her readiness to subscribe to an international agreement that chemical warfare be banned.

German circles emphasize the importance of the announcement in view of the charges that Germany's vast industrial equipment would make her a formidable adversary in any future war, as German factories could be transformed immediately into plants for the manufacture of poison gases. Thus, say the German spokesmen, Germany stands ready to prove her peaceful intentions by condemning the employment of what has been styled her strongest potential armament.

The opinion prevails that as all of the great powers except Russia now have gone on record as willing to subscribe to a convention prohibiting the use of chemical warfare, the announcement by Germany is of incalculable value in the world peace movement.

Suggests Scheme To  
Overcome Drug Evil

New York Man Offers Prize For Invention Of Synthetic Opium

Former Controller Herman A. Metz, of New York, has announced the offer of a prize of \$100,000 to the first man to invent a process for producing synthetic opium at a price low enough to wipe out the poppy-growing industries of India and China.

Mr. Metz made the condition that the chemist who captured the reward should give up his rights to the process and permit it to be used under conditions laid down by an international agreement.

"If a synthetic opium were produced," he said, "the growing of the opium poppy would become uneconomical. It would be gradually wiped out, as the growing of indigo was wiped out by the manufacture of synthetic indigo. The growers of the opium poppy would be forced into other branches of agriculture and the opium complex in international politics would become a thing of the past. Then all nations could unite on a program with the object of eradicating the opium habit."

"The synthetic process of manufacture could be regulated by the government," he said. "The cheapened price would make it impossible for the opium plantations to continue. The profit would be taken out. Then the regulation of the evil will become easy."

## Savings Certificate Popular

Alberta Government Certificates Would Seem to Be in Demand

The purchase of Alberta provincial savings certificates during the first four months of 1925 shows an increase of some \$200,000 over any previous twelve months, according to figures supplied by the deputy provincial treasurer. This increase is attributed largely to the fact that a large number of purchasers of savings certificates are putting the interest back into bonds. On the other hand the savings certificates are becoming more widely known throughout the country.

The total in deposit at the present time is somewhat over \$6,850,000. The total amount of certificates sold since the inauguration of the system is in the neighborhood of \$26,000,000. Of course from time to time, deposits are withdrawn, which leaves the amount deposited at the present time about \$6,850,000.

## Slow At Answering

The fisherman came along with his rod and line and stopped by the ancient angler who'd been angling in that same spot all day.

"How are the fish in these parts?" he asked.

The angler looked up wearily. "Well," he said, "I really can't say. I've dropped them a line every day for a week now, and I've had no reply yet."

## Manitoba Beekeepers

The 1,800 beekeepers in the province of Manitoba, with 22,113 colonies, produced 1,202,000 pounds of honey valued at \$195,000 in 1924, according to the official returns made by the provincial apiculturist.

## Certainly Not

Little Harry went into a music store to buy a string for his violin.

"Do you want a steel one?" asked the shopman.

"No, of course not!" answered the boy indignantly. "I want to buy one."

## After the Holidays

"What is your favorite book?" "My bankbook; but even that is lacking in interest these days."

## Tablet Dedicated In Edison's Honor

Unveiled By His Wife At Menlo Park, N.J.

On the scene where he conceived many of his great inventions and carried on the experiments which resulted in the perfection of his greatest work, at Menlo Park, N.J., a bronze tablet commemorating these achievements was unveiled in honor of Thomas A. Edison recently. The tablet was the gift to the State of New Jersey of the Edison Pioneers, men who worked side by side with the inventor in the old days, and it was unveiled by Mrs. Edison, the inventor's wife, while prominent speakers related the tremendous effect his inventions had had upon the progress of mankind.

The tablet, set in a huge granite boulder with a base of concrete containing bricks from the foundation of the first Edison home in Menlo Park, is on the Lincoln Highway close to the original Edison laboratories and workshops. Participating in the affair were about 600 of Mr. Edison's friends and former associates, who sat in chairs placed directly on the highway, the traffic over which had been diverted for the occasion. The tablet bears this inscription:

"On this site—1879-1882—Thomas Alva Edison began his work of service for the world to illumine the path of progress and lighten labor for mankind. This tablet is placed by the Edison Pioneers to attest the gratitude of the industries he did so much to create."

King Refuses Legacy  
Of Welsh Castle

Countess Hoped It Would Be Permanent Residence For England's Kings

Disregarding ancient precedent set down by Roman emperors, King George recently declined to accept a legacy of Gwyrch Castle in Wales and \$250,000 for its upkeep, bequeathed to him in trust by the Countess of Dundaonald who died last year leaving an estate valued at more than \$1,000,000. Hope was expressed in the countess' will that the castle would become a permanent residence for the kings of England and for the princes of Wales, but as the bequest has been disclaimed by the ruler the property will pass, according to directions, to the Order of St. John of Jerusalem in England. The castle will be used by the order as a priory for residential and administrative purposes.

In connection with King George's refusal to receive the legacy it is recalled that the Roman emperors, from Augustus on down the line, vastly increased their private estates, as was the custom, by means of legacies from their loyal subjects.

## Exploiting the Arctic

Canada Trying to Learn Extent of Riches in Far North

There are no insurmountable physical obstacles to the exploitation of the Arctic and especially of Baffland, in which the Canadians are particularly interested. The northern portion of that great expanse of territory lies beyond the Arctic Circle, but it does not extend farther north than 75 degrees. The northern extremity of Spitzbergen passes the 80th parallel, and coal has been mined in Spitzbergen. In the years before the Great War several companies were engaged in the business. There was a time when Americans participated in it. What was done in Spitzbergen could be done in Baffland or elsewhere in the Arctic. Certainly the Canadians are showing wisdom in attempting to find out the extent of the riches which may be concealed beyond the Arctic Circle. They may remember to their ultimate benefit that time was when Alaska, lying wholly within what was then regarded as the Far North, was derisively known as Seward's Folly.—Boston Transcript.

## Awaiting Orders

The stationmaster on the East Indian Railway had been given strict orders not to do anything out of the ordinary without authority from the superintendent. This accounts for him sending the following telegram: "Superintendent's Office, Calcutta: 'Tiger on platform eating conductor. Please wire instructions.'—Jewelers' Circular.

## Find Great Grazing Area

Discovery of a great grazing area in the interior of British Columbia, more than 50 miles wide, and capable of maintaining 200,000 head of cattle throughout the year, was announced from the office of Hon. T. D. Pattullo, minister of lands, as the result of an exploration made by T. P. McKenzie, grazing commissioner for the province.

## Suspicious

Kate: "I will love you forever." Kirk: "Maybe so, but they tell me you get your hair curled every six months, and call it a permanent wave!"

## OUR CROSSWORD PUZZLE

- |  |                        |  |
|--|------------------------|--|
| <b>Horizontal</b>                                      | <b>Vertical</b>        |  |
| 1—Celestial bodies.                                    | 38—Ever.               | 15—Crude boat.                                   |
| 5—Musical instruments.                                 | 39—Sickness.           | 17—Flowerless plant with feathery leaves.        |
| 9—Earth.   | 40—Toward.             | 18—Lattice-work frame.                           |
| 10—Interlaced, as threads.                             | 41—Highland dialect.   | 21—Sieve.  |
| 12—Haul.   | 42—On the ocean.       | 22—Meaty.  |
| 14—Needy.  | 43—Assortments.        | 25—European owl of a tawny color.                |
| 16—Our country (abbr.).                                | 46—Ever (poet.).       | 27—Fasten together.                              |
| 17—Sense.  | 48—Goad.               | 29—Period.                                       |
| 18—Rods.   | 50—Transgression.      | 32—Navigates.                                    |
| 20—The American ostrich.                               | 51—Make haste.         | 33—Organs of hearing.                            |
| 22—Preposition.  | 53—Month of the year.  | 34—Reposes.                                      |
| 24—One who utters peevish complaints.                  | 54—Stone.              | 35—One who is afraid.                            |
| 25—Ancient Babylonian city.                            | 55—Cook before a fire. | 36—Pace.   |
| 26—Plundered.  |                        | 37—Rough and riotous.                            |
| 28—Manipulate.   |                        | 41—Small cooking apparatus.                      |
| 30—Seventh note of diatonic scale.                     |                        | 42—Limbs.  |
| 31—Belonging to the series of alcohols (chem. suffix). |                        | 45—Lubricate.                                    |
| 32—Makes invulnerable.                                 |                        | 47—Suffix indicating one to whom an act is done. |
| 35—Rattle.   |                        | 49—Cereal grass.                                 |
|  |                        | 51—Musical syllable.                             |
|  |                        | 52—Execute.                                      |

## New York's Vast Auto Camp

Has Every City Convenience and Will Accommodate 5,000 People

Camps for automobile tourists are now very much in favor, and every year sees more of these stopping places with larger areas and gradually improving accommodation. New York is now swinging into the fashion, and this summer will have an immense camp capable of accommodating 5,000 people. It will be known as Camp New York. It comprises forty acres situated at the junction of Baychester Avenue and Boston Post Road, and is within the city limits, thirty minutes run from Times Square. It provides parking space for a thousand cars.

Among the conveniences included are a general store, restaurant, American Automobile Association information bureau, spacious community house, city water, sanitary toilets, shower baths, day and night police protection, electric lights, telephone, a twenty-four-hour laundry service, daily post office delivery and newspaper service, milk, bread, meat and vegetable service, tent platforms and bungalows. There are also a children's playground, library, dancing pavilion, motion picture and radio entertainment.

## Discover New Gas In Sun

Total Eclipse in January Gave Scientists Their Chance

A new gas has been discovered by scientists as a result of the observations made during the recent total eclipse of the sun, according to Professor Frederick Slocum, head of the Van Vleck Observatory at Wesleyan University.

Professor Slocum says that the only time the scientists can study the gas about the sun is when the sun is in total eclipse. In January, their brief observations determined that there is a gas there whose presence they had not recognized before.

Professor Slocum said scientists are not prepared as yet to name the gas or to discuss its probable properties.

## Military Funeral For Dog

At Norfolk, Va., the reward of a faithful soldier was accorded "Peggy," English sheep dog, by members of the Veterans of Foreign Wars. They marched behind her flag-draped casket and fired a salute at the grave. "Peggy" fought with the British in Flanders, was several times wounded in action and was credited with having saved many lives.

## It Bothered Him

Colonel Hugh Clark tells a good story of a clergyman in the old days who was offered an increase in his salary from \$400 to \$600, but refused it—because he had enough trouble in collecting the \$400—Kingston Standard.

Mr. Rockefeller has given a million dollars to promote education in art. Probably he wants to stimulate the demand for standard oil painting.

## Noted Singer Honored

Madame Albani Appointed Dame of the Order of the British Empire

Singular tribute was paid to Madame Albani, famous Canadian prima donna, who has been appointed dame of the Order of the British Empire, when royalty, representatives of the English society and prominent leaders in the world of arts, attended a benefit concert at Covent Garden today for the aged singer, who is now living in retirement in London.

The royal box was occupied by Princess Mary and many other royalties. Madame Albani, who occupied another box with her party, was presented with huge bouquets by Madame Melba, representing music, and Mrs. Kendal, representing the drama.

## French Are Peaceful People

All Classes Living in Dread Of Another War

Contrary to foreign opinion—which will not understand and will not learn—France is the most pacifist country in the world. I have talked with peasants in the fields, with professional men and intellectuals, with shopkeepers and politicians. The one idea that dominates their minds is the dread of another "inevitable" war. They are divided only, by hopeless disagreement, as to the policy by which that war may be averted.—Sir Philip Gibbs, in the World's Work, New York.

## A Witty Speech

Bishop Vaughan, of Sebastopolis, a brother of the famous Father Bernard Vaughan, spoke at a recent dinner in London and made a witty speech. Among other things, he said that at such dinners it was a good thing to have a "big gun"—a canon, or possibly a bishop or two. "But," he added, "you always find the bigger the gun, the bigger the bore. The longer the spoke, the bigger the tire."

## Will Become Scottish Chief

Since the Duke of York took unto himself a Scottish bride he has evinced a particularly keen interest in Scotland. Now His Royal Highness is shortly to blossom out as a Scottish chief. He is soon to become chief of that vigorous London Scottish organization, the Scottish Association.

When a man is long on schemes he is usually short financially.

### MAKING A GOOD TOWN BETTER (A Series of Community Talks)

Before leaving the subject of thrift, credits and sav-  
ings accounts, which are inevitably associated with the  
banking facilities of a community, and of which we are  
conscious of having lain a great deal of stress, the subject  
of credit ought to be given emphasis.

The word "credit" is very flexible in its meaning.  
Primarily, it refers to the facilities for loans made possi-  
ble by the accumulation of capital in banks, trust com-  
panies, savings, building and loan associations, and the  
like. Not the banks, but the people themselves bring  
about the force of capital that goes to build factories,  
homes and cities.

Your little dollar can not do much good by itself to  
ward the bigger operations, but when amassed with the  
hundreds and thousands of dollars of you fellow citizens  
and dispensed through conservative channels such as the  
banks should, and in most cases do, afford, it becomes a  
part and parcel of the great financial force that turns the  
wheels of industry and commerce. Thus when you save a  
dollar, and stake it where it can keep on working, you  
actually have INVESTED that dollar for community  
good, besides added to your own independence and pro-  
tection.

This is no argument or reason, of course, for the sav-  
ing of money to the detriment of making purchases for  
sustenance, or enjoyment of life, or even for the lighter  
things for consumption and amusement; for strictly  
speaking, the miser is the only fellow who puts money  
where it does no one any possible good. It is rather  
that you may be able to accumulate sufficient means to  
afford the luxuries as well as the comforts, to which every  
human being on this mundane sphere is entitled. It is  
that you may draw upon your storehouse for individual  
and family needs, just as the community or the needs of  
capital draws upon your dollar through the financial in-  
stitution to supply or to enlarge its needs.

Along with crops, health and production, the market  
of money, that is, whether money is "tight" or other-  
wise gauges the prosperity of the country and likewise plays an  
important part in the community development.

### HEALTH LITERATURE EXHIBITION.

At the recent provincial convention of the Women's  
Institutes of Alberta held at Edmonton University, there  
was featured an excellent Health Literature Exhibition  
of the Alberta Division, Red Cross Society. Calgary.  
Health posters of various kinds, service posters of the  
Junior Red Cross (of which there are 15,000 members in  
this province) posters on tuberculosis, etc., formed an at-  
tractive feature of the display. There was an excellent  
series of photographs of little patients in the Junior Red  
Cross hospital taken on admission, with the limbs as they  
appeared with the physical disability the patient was suf-  
fering from. Then as a companion picture there were  
showing the cure in process and also the patient en route  
for home with his defects permanently rectified. This  
set of photographs was a very popular one, many women  
knowing cases of children who had been in receipt of Red  
Cross service and on that account the patients had proved  
the best advertisement that the Red Cross could possibly  
have for the pursuance of its peacetime policy of "Improve-  
ment of health, mitigation of suffering and prevention of  
disease."

A large quantity of health literature changed hands.  
Especially acceptable was the maternity and child wel-  
fare series of booklets prepared in sets of six. These com-  
prise the care needed in the management of infant life  
from the time of birth until the child is two years of age.  
Much useful information on infectious diseases, sex-  
education, etc., was obtainable in pamphlet form, and was  
readily accepted by the many visitors at the booth. A  
newly published leaflet on diphtheria with suggestions for  
its treatment by toxin anti-toxin has been issued by the  
Alberta Division, which is one of the members of the Ad-  
visory Health Committee recently formed with representa-  
tives from the Women's Institutes, Graduation Nurses,  
and the Medical Association for the purpose of consulta-  
tion on matters of public health. Readers of this notice are  
cordially invited to write in to the Red Cross Headquar-  
ters, 300 Traders Building, for copies of the diphtheria leaf-  
let, or if desired any health literature on maternity or  
child welfare, infectious diseases, etc. Mailed free to any  
address in Alberta.

The farmers this year are going to say it with flour.

It's all plain now: when a government begins to sink  
it floats a loan.

When they build a modern home with a cellar they  
usually can sell 'er pretty quick.

## Gleichen Motor Co.

Authorized Ford and  
McLaughlin Dealers

Now is the time to have your Ford put  
in shape for spring. We are forwarding  
to all Ford owners in this district a pham-  
plet showing our flat rate labor charges..

If you wish any work done you have  
only to look at the chart and know exactly  
what it is going to cost. If you do not re-  
ceive one of these phamplets call or drop a  
line and we will be pleased to forward one  
to you.

We have at the present time some good  
buys in second hand cars. It will pay you  
to call and inspect these cars.

## HENDERSON & MALLORY

Owing to the frequency of Farm Fires, the at-  
tention of Farmers is especially drawn to the very low  
rates charged for insurance of grain whilst stored in  
barns or granaries. The result of a year's work is  
often swept away in an hour, and every farmer should  
protect himself by carrying a policy with

## Complete Program For Tuberculosis Research At Joint Conference

Ottawa.—A "very definite and complete programme for tuberculosis research" has been perfected at a joint conference held here under the auspices of the national research council and the federal department of agriculture.

The conference, described as one of the most important scientific conferences ever held in Canada, met under the joint chairmanship of Dr. H. M. Tord, president of the national research council, and Dr. J. H. Grisdale, deputy minister of agriculture, to review the present situation in Canada in connection with tuberculosis, and to discuss the possibilities of solving, through scientific research, problems relating to tuberculosis in man and animals. More than 25 prominent Canadian scientists attended the conference.

Recognizing that the time had arrived to co-ordinate and stimulate research work in Canada on the subject, if the problems related to tuberculosis were to be solved, the research council appointed an associate committee comprised of most of the leading bacteriologists and pathologists in Canada, together with representatives of the federal department of agriculture and of various other organizations actively interested in the question. The committee was in session two days.

Besides the joint chairmanship, Dr. Tord and Dr. Grisdale, the following westerners are on the associate committee on tuberculosis research: Dr. S. Hadwen, research professor of animal diseases, University of Saskatchewan; George Hutton, natural resources department, Canadian Pacific Railway, Calgary; Dr. A. Rankin, professor of bacteriology, University of Alberta; Dr. A. Savage, professor of animal pathology, University of Manitoba; Dr. P. Talbot, provincial veterinarian, Edmonton. S. P. Engleson, secretary of the national research council, is executive secretary of the committee.

### Unique Ceremony In Winnipeg

"Unknown Soldier's Cross" From Flanders Presented at Toc H. Winnipeg.—A ceremony such as has never before been witnessed in Canada marked the solemn presentation of the "Unknown Soldier's Cross" at the headquarters of Toc H. (Talbot House), by Major-General H. D. B. Kecheb, officer commanding Military District No. 10 here. The little wooden cross, with the mud of Flanders still clinging to it, was forwarded to Mark One of the Empire-wide organization, by Field Marshal Lord Plummer as a symbol of sacrifice.

The cross once marked the grave of a Canadian soldier who gave his life in service on the battlefields of Flanders and whose identity never has been established.

Veteran and other patriotic organizations attended the impressive ceremony.

### More Automobiles In Alberta This Year

Licences to Date Almost Reach Last Year's Total

Edmonton.—It looks as though the motor car population of Alberta this year will considerably out-number anything the past has known. To date about 47,000 automobile licences have been issued by the provincial secretary's department, as against 47,000 for the whole of last year. And there are seven months still remaining for more business.

### Shelve Contentious Clauses

Ottawa.—A number of non-contentious clauses in the new Grain Act were approved by the special committee on agriculture and colonization of the House of Commons. It was agreed to allow all clauses of a contentious nature to stand for consideration at a subsequent meeting.

### Death Toll In Jap Earthquake

Tokyo.—The latest official estimates of the casualties from the earthquake which shook the Tajima district, northwest of Osaka, last Saturday, place the number of dead at 245 and injured at 482. Throughout the district affected 3,516 houses collapsed or were burned.

### Wins Medal At McGill

Montreal.—Many westerners were among the students graduating at McGill University, May 25. A British Columbian, T. H. John, of Victoria, won the Stevenson gold medal for dentistry.

W. N. U. 1579

### Protest Against Changes In Soldiers' Settlement Act

Winnipeg.—In protest against proposed changes in the Soldiers' Settlement Act, immediate representation will be made to the Dominion Government by the Manitoba Command of the Great War Veterans' Association, it was announced here. Officials of the organization maintain that the suggested amendments are not in keeping with the request made by the G.W.V.A., and generally are unsatisfactory to the soldier settlers.

### Discuss Administration Of Canteen Funds

Very Doubtful If Detailed Statement Will Be Furnished

Ottawa.—The assertion that it was extremely doubtful if a detailed statement of all specific items of expenditure would be furnished by the Dominion Command of the Great War Veterans' Association, regarding monies received from the canteen funds, marked the inquiry of a special committee of the senate, into the administration of the canteen and disablement funds, the uses to which advances from these sources have been put, and the sale and manufacture of paper poppies.

Payment of \$25,000, by the Great War Veterans' Association for stock in The Veteran newspaper, and a further payment of \$8,000 for subscriptions to The Veteran, also came under discussion.

It was explained that all the funds of the association were merged in one consolidated account, and that monies received from the canteen fund had been given to extend the scope and usefulness of the association.

A statement of expenditures from this consolidated account was, however, available.

### Would Like To See Canada

Duchess of York Expresses a Desire to Visit the Dominion

London.—"I would like to arrange with my brother-in-law, the Prince of Wales, for a stay at his ranch in Canada," was one of the many observations appreciative of the lure of Canada made by the Duchess of York, who, with the Duke of York, paid a surprise visit to the British Empire Exhibition at Wembley, similar to that paid by the King and Queen.

Most of the time of the Duke and Duchess of York was spent at the Canadian pavilions. The Duchess was very much interested in the exhibits from Canada, and told the Canadian officials that she was very anxious to visit the Dominion, never having been there.

### Communists On Rampage

Terrorize Council Members In Town In France

Paris.—Communists invaded a meeting of the city council at the city of Ville Neuve-Le-roi, and compelled the members of the council to sign a document proclaiming the dissolution of that body. The Communists then forced the councillors to leave the room in the city hall, where they had been in session. Later, police, summoned by the ousted city officials, attacked the invading Communists and routed them.

### Will Not Negotiate With Soviets

London.—Foreign Minister Chamberlain, answering questions in the House of Commons, declared the British Government had no intention of resuming negotiations with Soviet Russia.

### Motor Boat Beats Train

New York.—Gar Wood, world motor boat champion, defeated the Twentieth Century Limited in a dash from Albany to New York, May 25. The distance covered was approximately 150 miles. In 1921, Wood defeated an express train from Miami, Fla., to New York.

### To Ban Beer Ads

Ottawa.—On account of the resolution of indignation recently adopted by the Women's Christian Temperance Union in this city, the Ottawa Electric Railway has announced that all 44 beer advertisements would be removed from street cars at the expiration of the advertising contracts.

E. Roy Sayles, Manager and Treasurer of the Canadian Weekly Newspaper Association, who will attend the Convention in Winnipeg, June 24, 25, and 26.

### Mounties Could Have Joined Wembley Parade

Left Out To Reduce Length is Explanation Given

London.—The department of overseas trade informs the Canadian Press that the reason why the members of the Royal Canadian Mounted Police, now doing duty at the Canadian pavilion of the British Empire Exhibition, had not a place in the military procession in connection with the Empire Thanksgiving service in 1925, was because the department was under special instructions to reduce the length of the procession this year, instead of having it as long as it was last year.

If the Canadian authorities had asked for the Mounted Police to be included in the parade, the department states, arrangements for this would gladly have been made.

## WILL POINT OUT DEFAULTS IN A NOTE TO GERMANY

London.—Germany's defaults relative to disarmament, as specified by the Treaty of Versailles, have been outlined for presentation to Berlin in a note that probably will be dispatched this week by the council of ambassadors.

The note and a covering letter, which have been agreed upon by France and Britain, will point out that, in view of the fact that the allied committee of control has concluded that Germany has not fulfilled all of her disarmament obligations, the allied experts have agreed upon a list of defaults which will be in very plain language.

On the whole, France considers Germany has fulfilled her obligations in the destruction of armaments, say French authorities here, but there are still 20 or 40 factories for war materials which yet are to be transformed into commercial establishments. Objection also has been raised to the large German war staff and the state police.

### Man Has Miraculous Escape

Carpenter Used Plank to Break Fall From Fifth Story

San Francisco.—Using a 15-foot plank for a parachute, Ralph Harth, a carpenter, employed on a new building here, accidentally descended from the fifth story to the sidewalk unharmed, save for a slight shock.

Harth was pushing up the plank when he fell down the scaffolding. He held fast to the timber and the area it exposed to the wind broke his fall. Doctors at the hospital where he was taken for examination, declared his escape from instant death was a miracle.

### Noted Scientist Dead

London.—Sir William Fletcher Barrett, scholar and scientist, died here at the age of 81. Sir William founded the Society for Psychological Research and formerly was its president. His writings covered a wide field of philosophy, science and psychological researches.

### Soviets Give Trotsky Position

Moscow.—It was officially announced that Leon Trotsky, former minister of war, who recently has been in political disfavour, has been appointed a member of the presidium of the supreme economic council and chairman of the general concessions committee.

### Story Of Tragedy

Ottawa.—Hon. Charles Stewart, minister of the interior, said in the house that he was having the papers prepared respecting the fatal Wrangel Island expedition, and they would be presented to the house shortly.

### C. W. N. A. Convention

Splendid Programme Arranged For Gathering in Winnipeg on June 24, 25 and 26

The Canadian Weekly Newspaper Association, whose membership is Dominion-wide, will hold its annual convention this year in Winnipeg on June 24th, 25th and 26th. A large attendance from both Eastern and Western Canada is assured, and it is estimated that between four and five hundred delegates will register. Elaborate plans are being made for the reception and entertainment of the newspaper men, and a most successful convention is anticipated. On Thursday, the 25th, the Provincial Government will tender a banquet to the delegates at the Manitoba Agricultural College at which addresses will be given by Premier Bracken of Manitoba, Premier Dunning of Saskatchewan and Premier Greenfield of Alberta. The City of Winnipeg will entertain the delegates at a luncheon at Assiniboine Park on Friday, the 26th. On Friday evening the party are invited to a dance at the Royal Alexandra Hotel, the guests of the Canadian Pacific Railway.

The Winnipeg Tourist and Convention Bureau will entertain the newspaper men to an automobile drive and visits to interesting parts of the city during their stay.

On Saturday, June 27th, the delegates are invited to spend the weekend at Minaki Inn, the guests of the Canadian National Railways.

### Cowboys Are Breaking Buffaloes To Harness

Will Be Driven Through Calgary Streets In Jubilee Parade

Calgary.—When the historical pageant, which will mark the fiftieth anniversary of the birth of the city of Calgary is held on the morning of July 6 this year, Calgaryans and visitors to the city will see for the first time in history two full-grown Alberta buffaloes driven in harness through the streets of the city, attached to an appropriate cart.

The buffaloes have been shipped to J. M. Dillon, well known stockman of this city, by Oscar Duclos, of Edmonton, the packing plant magnate, and they are being broke to harness in this city by Harvey Shore and Bert Bishop. When first received several weeks ago, the buffaloes were almost unapproachable, but nothing daunted, the cowboys "gentle broke" them, and now they are being driven in harness and will follow any person who shows them a tin of oats.

### Must Secure Game License

Foreigners Going Into Hinterland Must Pay License Fee to Hunt

Ottawa.—Authority to compel foreigners going into the Northwest Territories to take out a license is invested in the Federal Government by a bill which was given first reading in the House of Commons.

The minister of the interior, Hon. Charles Stewart, explained that from time to time foreigners were entering the Canadian hinterland to explore and hunt game, and it appeared at present that the government had no authority to demand that such people take out a license. It was the intention to exact license fees hereafter.

### Dirigible Badly Damaged

R-33 Will Not Fly For Some Little Time

London.—The dirigible R-33 will not be ready to take to the air again until the end of July, or early August, as she was damaged more extensively than was at first supposed, when she broke away from her moorings at Pukhim in April.

Meanwhile, the R-36 is being prepared for a trip to Egypt and may perhaps be used for some of the trials in which the R-33 was to have been tested.

### Ammunition For Afghanistan

Allahabad, India.—The Allahabad Pioneer states that 5,000 boxes of ammunition have landed at Karachi to be dispatched to Kabul, Afghanistan. Russian aeroplanes, pilots and mechanics have arrived at Kabul for the organization of an air force to prevent the repetition of the recent disturbances in the Kabosh district of Afghanistan.

### Named Army Chief

Berlin.—Miss Mary Booth, second daughter of Gen. William Bramwell Booth, has been appointed head of the Salvation Army in Germany, succeeding Commander Oegrin.

### Scottish Church Union

Edinburgh.—The general assembly of the Church of Scotland, by an overwhelming majority, carried a resolution approving union with the United Free Church.

Lorne A. Eedy, President of the Canadian Weekly Newspaper Association, and Editor and Proprietor of The Telescope, Walkerton, Ont., who will preside at the Convention, meeting in Winnipeg, June 24, 25 and 26.

### Winnipeg Firm Gets Elevator Contract

Will Erect \$876,729 Building at Prince Rupert, B.C.

Ottawa.—The contract for building the new grain elevator at Prince Rupert, B.C., has now been accepted by the government, according to an announcement made by Hon. Thomas Low, minister of trade and commerce. The name of the successful tenderer is Carter, Halls, Aldinger Company, Limited, of Winnipeg, and the contract price is \$876,729.

The contract awarded to the Winnipeg firm includes the building proper, but not the foundation. The latter has been constructed by the Northern Construction Company at a cost of \$220,000.

### Promulgate New Stamp Tax Rule

Regulation To Be Effective From May 1st, 1925

Ottawa.—The following regulation has been promulgated by the acting minister of customs and excise, under the Special War Revenue Act.

"Credits on statements of accounts, when for amounts of \$10 or over, are subject to the stamp tax on receipts, except when such credits are covered by separate receipts to which the required excise tax stamps have been affixed. In such cases, the statement is to bear the notation 'stamp tax paid,' initialed by the maker. This regulation is in effect on and after 1st May, 1925."

## REDUCED RATES ON LIVESTOCK IS SUGGESTION MADE

Ottawa.—Dr. J. H. Grisdale, deputy minister of agriculture, advocated a \$15 per head rate on cattle shipped from Canada to Britain, as compared with the prevailing rate of \$20, before the special parliamentary committee on ocean rates. He thought \$15 for a matured steer was a reasonable rate when prevailing prices were considered, and if lighter animals were carried five in a stall, the rate might be decreased.

"A reduction in the rate would open up a market, the value of which is scarcely calculable," the witness said. He compared the \$7.00 cattle rate of some years ago with the rate prevailing today, and said that the present rate was making it difficult to build up the Canadian cattle industry. Not only would the Canadian cattle shipper benefit from a lower rate, but the steamship companies would be assured of regular cargoes, because of the development of the industry. There was practically an unlimited market for Canadian cattle in Britain, and at present, space was inadequate.

### Public Shooting Grounds

Edmonton.—Thirty-two public shooting grounds in Alberta will be available for general use next shooting season, under the new regulations recently made by the Dominion authorities. The location of these grounds has now been announced, an order-in-council having been passed at Ottawa setting forth the particulars of areas thus reserved in the three prairie provinces.

### Disarmament In Sweden

Stockholm, Sweden.—Reduction of the standing army and postponement of the naval building programme as contained in the Swedish armament bill, was adopted by the Lower House recently. The present standing army of six corps will be cut to four, while any definite programme of naval building must be postponed.

## Industrial Disputes Act Has Proved Its Value Says Senator Dandurand

### Geologist Made Important Discoveries In West

Ottawa.—Dr. Donaldson Bogart Dowling, 67, explorer and geologist with an international reputation and responsible for the discovery of many coal and oil fields in Western Canada, died suddenly at his home here from heart trouble. Dr. Dowling entered the geological survey of Canada in 1884. He turned his attention to the study of coal and petroleum deposits of Western Canada, and was an international authority on this subject. His knowledge and advice was responsible for the discovery of an artesian water supply in Southern Alberta, making irrigation possible. As late as 1921 he made an examination of the petroleum discoveries at Fort Norman.

### Galicians To Settle In Peace District

Farms In Northern Alberta Have Been Selected

Edmonton.—One thousand families, comprising 10,000 persons, are coming out from Eastern Galicia some time this summer to take up land in the Peace River district. They will be brought here under the auspices of the Ukrainian Immigration and Colonization Association of Edmonton, and while the exact date of their departure is not yet known, it probably will be within the next month or two.

Rev. Father Jean and Dr. Buczynski were in the north country recently looking over available land in the High Prairie and other districts. The farms upon which the Ukrainian immigrants will settle have now been selected, and on arrival the new settlers will find everything in readiness for them.

### Discuss Changes In Dairy Act

Proposed Amendment's Would Make Act More Comprehensive

Ottawa.—In committee, the House of Commons considered an act to amend the Dairy Industry Act.

Hon. W. R. Motherwell, minister of agriculture, explained that the purpose of the amendments were to render the act more comprehensive, to eliminate weaknesses that had become apparent during the last few years and to provide heavier penalties for infractions. He also explained that it was designed largely to place more stringent restrictions upon exported dairy produce.

### A New Industry

Manitoba Farmers To Go In For Hemp Growing

Winnipeg.—Hemp growing is likely to become a permanent industry among the farmers of the Portage Plains district. Various farmers have agreed this year to cultivate ten acres each, the total to be cultivated this year being 500 acres. The seed is being distributed.

The Manitoba Fibre Mills, Limited, are negotiating for trackage, and it is announced that a hemp mill will be in operation by fall.

### SUNDAY SCHOOL LESSON

JUNE 7

### PETER'S BROADENING VISION

Golden Text: Of a truth I perceive that God is no respecter of persons. Acts 10:34.

Lesson: Acts 10:1 to 11:18.

Devotional Reading: Isaiah 61:1-9.

### The Text Explained and Illumined

1. Peter Condemned by the Church at Jerusalem, verses 1-4. The apostles and the brethren at Jerusalem heard that Peter had preached to Gentiles in Caesarea, and on his return to Jerusalem they rebuked him, not for the preaching, but for having gone into the house of Gentiles and eaten with them—the scandal of it. "You went in to men uncircumcised and ate with them!" they exclaimed in horror. Up to this time Peter's authority had been unquestioned. It must have cut him to the quick to have his actions challenged. He did not quail, but justified his conduct, explaining the occurrences to them just as they had happened.

2. Peter's Vision and Its Lesson, verses 5-10. Webster defines a trance as "A state in which the soul seems to have passed out of the body into another state of being, or to be wrapped in visions; an ecstasy." It was while Peter was praying in the city of Joppa that he fell into a trance and had a vision by which God taught him a great truth.

Ottawa.—The bill amending the Industrial Disputes Investigation Act, 1907 (the Lemieux Act) to bring it in conformity with the decision of the privy council was before the senate, passed through committee, and stands for its third reading without amendment.

Senator Beaudin raised the point of the liability imposed on employer and employee for a strike or lockout not in conformity with the law. He pointed out that in practice, at least, the penalty could be imposed upon the employee.

Senator Casgrain and Senator Reid also took the same position.

Senator Dandurand said the principle of equality of treatment of employer and employee was embodied in the bill. The act had proven so valuable that he thought every effort should be made to continue it as a medium for the settlement of industrial disputes.

### Relief For Soldier Settlers

No Further Legislation In View Says Hon. J. A. Robb

Ottawa.—During the debate in the House of Commons on the resolution providing a credit to the account of any soldier settler whose contract with the government had not yet expired, or forty per cent, of the value of all livestock advanced and purchased before October 1, 1920, and 20 per cent, of the purchase price of all livestock in the following twelve months, J. H. Harris, Conservative, York East, stated that there seemed to have been no attention paid by the government to the question of relief in respect to the excessive cost of chattels to the soldier settlers. In one case where a soldier had paid \$250 for a bay mare, ten years old and \$35 for 25 hens, he thought that livestock at this price was rather expensive and asked what was the policy of the government in regard to affording relief in such cases.

Hon. J. A. Robb, minister of immigration and colonization, replied that he would have the case of the soldier settler referred to by Mr. Harris looked into, but that no further legislation is in view in regard to this matter.

### Calgarian To Act On Fruit Control Board

Jobbers and Growers Agreed on Having a Committee

Calgary.—H. C. Stockton, of Calgary, president Western Canada Fruit Jobbers' Association, has been named by the jobbers as their representative on the committee of fruit and vegetables of British Columbia for 1925.

Other members of the committee have not been announced yet. The two members will be representative of the Associated Growers of British Columbia and of the shippers of that province.

This committee was agreed upon at a meeting of the jobbers and growers in Winnipeg, and again at Vernon, when the jobbers and growers met with the shippers.

### Bankruptcy Act Amended

Bill to Aid Insolvent Farmers Given First Reading

Ottawa.—An amendment to the Bankruptcy Act to enable the provinces to appoint official custodians to administer the estates of insolvent farmers and to enable such farmers to carry on work after having been declared bankrupt, was introduced in the House of Commons by Hon. Ernest Lapointe, minister of justice. The amendment, as introduced in the commons, has been passed by the senate.

The minister said that the proposals were enforcing the recommendations of the banking and commerce committee of last year. The matter had been urged for some time by Saskatchewan and Alberta members of parliament.

The bill was given first reading.

### Acquiring B.C. Creamery Plants

Vancouver.—P. Burns and Company, Limited, confirmed reports that the firm has under way negotiations with a view of acquiring co-operative creamery plants at Salmon Arm, Vernon and Armstrong, in the Interior of British Columbia.

### Canadians Get Honors At Yale

New Haven, Conn.—Four Canadians are among the 127 students who have been awarded fellowships and scholarships for graduate study at Yale University next term, including Carl Tolman, Vancouver, B.C.

### SUCCESSFUL CROPS

SEED is the vital factor in the whole crop process. Successful crops can come only from clean, vigorous seed.

The selection of the seed best suited for your locality may mean the difference between a good and a bad crop.

Make full use of the free advisory services of your nearest agricultural college. They can help you to avoid mistakes.

Write to the Department of Agriculture at Ottawa for a list of "300 Hints to Better Farming."

UNIVERSAL JEWEL

From the novel by Mary Roberts Rinehart

COMEDY—"Eat and Run"

### Type Your Laundry Tickets on This

This, ladies and gentlemen, is a picture of the only Japanese typewriter in captivity. It is known as the "Hobun" typewriter. It inhabits the offices of Shanghai, Tokio and other Oriental cities; is quite harmless but somewhat difficult to control. It is more complicated than the Theory of Relativity, runs as smoothly as a tank crossing the Rockies and makes more noise than a duet by a boiler factory and a Salvation Army band.

Its function is that of typewriting the Japanese language. It was invented by an Irish mechanic named Kiota Sugimoto and was on the market in 1915. As a piece of machinery it is infinitely superior to the "typewriting Americana". The latter very seldom has more than 40

keys, the Hobun has three thousand; the Americana prints a total of 84 characters, and the Hobun nearly four thousand. Then again, anyone can operate the Americana variety but how many of our stenographers could run a Hobun, with its thousands of keys and hundreds of levers.

It has (as we suspected) a unique key-board arrangement. In fact, it has no key-board at all. The type is arranged face upward and serves the dual purpose of key-board and printing-type. To one side of the platen is a lever which, when depressed over the desired character, affectionately picks the character up, rubs it gently on an ink-roller and finally conveys it up to the platen on which the paper is rolled and thus, triumphantly prints the character.

We have stated that the machine is complicated but really it is simplicity itself — you merely learn the Japanese language and a few thousand of ideographic Chinese characters; familiarize yourself with the Hobun's three thousand keys, acquire mastery over its multiplicity of levers and then — go ahead and type.

The specimen shown above was captured by Canadian Pacific officials in China and now occupies much of the floor space of their office in Shanghai. The expert Chinese stenographer seated in front of it, has been known, when a rush is on, to produce as much as one whole page of neatly typed Chinese ideographs a day on his Hobun. This record has not yet been beaten.

### MISCELLANEOUS

Notices under this heading 15 words or under 50c. first insertion and 25c. each subsequent insertion—3 weeks \$1. Over 15 words one cent per word for each insertion.

When any brands have to be cut a charge of 35c. each is made.

Brand reading notices \$1.50 for each animal, three insertions. Over 15 words 1 cent per word extra each insertion.

In order to insure publication CASH MUST accompany each notice.

FOR SALE—3000 bushels of 1923 and 1924 Oats at 50c. per bushel. Apply W. S. Hill, Vulcan, Phone 810.

FOR SALE—Nearly new baby stroller or will trade for carriage. Phone 143 Gleichen tfl1

### TOWN AND DISTRICT

Owing to the Gleichen Stampede the Gleichen W. I. ladies will meet in the Community Hall Club room on Tuesday, June 23rd, for their regular meeting.

Lawrence Irwin has left California and is now in Washington. Like so many others he may be expected to return to Gleichen eventually.

The Strathmore Standard speaks of the arrival of a "pair of twins," at a Namaka home. Wonder what dad says when twins arrive in pairs?

Prof. Low, principal of the Arrowood Consolidated School, is happy in the arrival of a fine baby girl at the home of Mrs. F. Pobst on May 27th.

Golden Jubilee Lodge, No. 35, Knights of Pythias have presented Bro. A. Montgomery with a pair of silver mugs for his newly arrived twins. Bro. Montgomery sure is one of the brave boys.

Russell Scott, of Alsac, Sask., and Miss B. Scott of Boston, Mass., arrived last Saturday to visit their uncle Dr. G. H. Fairquharson for a couple of days. Miss Scott continued west to visit friends in Portland, Oregon and California, before returning to Boston.

All Knights of Pythias are requested to attend the installation of the officers of Golden Jubilee Lodge, No. 35, next Monday night, June 15th, in the Masonic Hall. A Calgary team will be present and about twelve candidates are ready to take the first and second degrees that night.

Residents of Township 20 and 21-Range 24, W. of 4th, are advised that the property of the Municipal District of Dinton, consisting of iron posts woven wire, etc., for use in Rabbit Drives has been allotted for use in said township during the last ten days of next December. Rate-payers wishing to stage rabbit drive apply for use of outfit naming dates wanted to H. H. Wilson, Sec.-Treas. No. 189, Blackie, or to Councillor Walter McHugh, R1412, P. O. Box 85 Carleton Place.

### THE UNION CHURCH OF CANADA

REV. H. J. BEVEN, Minister.  
Phone 24

11 a.m. Sunday school and Bible classes.

3 p.m. Alton school house.

7:30 p.m. Evening worship.

You are cordially invited to attend these services.

Friday 8 p.m. Choir practice.

Ladies Circle second and fourth Thursdays.

By the time the Call comes from the press this week the United Church of Canada will be a fact in our national history.

This the culmination of twenty years of approach and work to this end. But it is also the beginning of a great movement that with even a moderate success will write a new page in the history of the Christian Church. Locally there has not been any upheaval nor will there be. Instead of the term Union Church the name "The United Church of Canada, Gleichen" will be used and the local congregation will be a part of and under the direction of that body. The first general council of the United Church sits this week in Toronto, where much of the detail work in the way of adjustment will be done.
